Career & College Ready Students - Reading, Writing, Speaking, Listening, & Test Taking DVD

Fourteen programs on one DVD with optional reproducible worksheets and laminated posters.

This new, menu-driven DVD provides fourteen information-oriented programs to help encourage and direct academic readiness and positive outcomes in the areas of writing, reading, test taking, listening, speaking, and comprehension. This DVD is geared to the new Title I emphasis on college and career readiness. For example, these well-focused instructional shows outline effective techniques to work through test anxiety, review proven and easy-to-follow practices to help improve writing, explore techniques to help improve comprehension, and more. From test taking strategies to understanding your audience, this DVD is certain to meet the needs of students and objectives of teachers. The fourteen individual titles are listed below and come with optional reproducible worksheets and 17” x 22” laminated posters which provide overview of the concepts explored in each title. Each title is approximately 7 minutes in length for a total of 125 minutes of instruction.

DVD menu items include:

- **Mastering Test Writing Skills**: The Writing Process, Internet Research Techniques, Organizing & Writing Effective Test Essays
- **Excellent Test Reading Comprehension Skills**: Reading Strategies In Content Areas, Summarizing Nonfiction & Finding Supportive Detail, Analyzing Current Themes In Literature, Understanding Literary Devices
- **Awesome Test Taking Skills**: How To Dissect A Test Question, Tricks For Improving Test Scores, Conquering Test Anxiety, Involving Parents In Test Taking Success

Career & Tech Ed GOE DVD

Twelve Clusters On One DVD

This new, menu-driven DVD provides an overview of the aptitudes, skills, job functions, tools, and career options typically needed for each of the 12 career paths/clusters. In addition, a video snapshot of each career path includes general education and preparation along with a list of recommended high school and college classes. This is an excellent career exploration and planning resource. Each career snapshot is approximately 6 minutes and provides interviews with professionals in the field: for example, a state patrol officer, a customer service director at a large hotel, a human resource professional, a cable news anchor, a microbiologist, and more. This program will challenge students to think about career options in a practical light as they begin to explore their options in terms of values, common personality characteristics, and other related careers. The clusters/career paths include: Business Detail Careers; Protective Careers; Industrial Careers; Sales Careers; Plant and Animal Careers; Physical Performing Careers; Humanitarian Careers; Artistic Careers; Accommodating Careers; Scientific Careers; Mechanical Careers; and Leading & Influencing Careers. Approx. 75 minutes.

Work Ethics In The New Economy
Globalization and information technology require a new commitment to lifelong learning by workers. Education is the key to surviving the new economy. This show looks at and details work ethics in the new economy. The new economy reality is that in order to compete globally, industries must constantly change and adapt. This show discusses specific survival tips useful to the employees caught in this global shift.

DCD033 $69 DVD

Hot Jobs Of The Future That Don’t Require A College Degree
Almost 70% of jobs do not require a four year or advanced university degree. Most jobs have an educational requirement that includes a high school, technical, community college, continuing education, and/or apprenticeship background. This show emphasizes flexibility and long range planning in order to meet goals. Specialized training is needed in many fields for the immediate career goal, but so is continuing education for the constant upgrading required by most industries. Specific high demand jobs are explored including specific tips for further exploration.

DCD032 $69 DVD

Non-Traditional Job Search Basics For Re-Entry Success
Focused on populations that have special challenges getting into or reentering the workforce, this show features specific steps and advice from leading experts in the employment world. From women re-entering the workforce after a long absence to recently released from institution job seekers, this show sets out the attitudes and job search skills set needed to succeed in the new economy.

DCD034 $69 DVD

Genders, Jobs, & Non-Traditional Work Arrangements
Some companies have responded to a non-traditional workforce with creative flex scheduling arrangements in order to increase productivity and promote stress-free work environments. This show looks at what it means for the employee in the world of work to shift from a traditional 9 to 5 work setting to a non-traditional work arrangement.

DCD031 $69 DVD

Health Skills & Careers

A Man In A Woman’s World
Take a look at the stereotypes surrounding men who choose a job or career traditionally filled by women. This program takes a unique view of a rather common stereotype that is often overlooked. Straightforward advice from a man in a non-traditional career concludes this well-organized look into the career/job choices available.

DHU171 $125 DVD W/WORKSHEETS

A Woman In A Man’s World
A powerful interview with a woman who has achieved success in a non-traditional career is highlighted. Cross-gender communication, women supervising men, balancing work and family, and setting career goals are all covered in this program. This show provides a unique look at the challenges of being a woman in a man’s world of construction. This is an excellent resource to help answer some of the unknowns between the genders and to help create acceptance in the workforce.

DHU172 $125 DVD W/WORKSHEETS

Basic Career Math Skills DVD Series
Students will catch a glimpse of ten career worlds presented in this colorful and work-setting oriented series. Combining inside peeks at real-life job settings with the specific math skills necessary to succeed, students will see firsthand the math at work and understand why math is so important in school. Students will appreciate the step-by-step approach as each math skill is described in detail using camera close ups and screen graphics. Very specific math skills presented in a very popular career area make these excellent career exploration programs as well as math competency-based aids. In addition, each program answers loud and clear, “why math is important!” Highly recommended for career counselors, vocational teachers, and business teachers, this series is a must for vocational classrooms and career centers.

Quick Tips To Health Care Careers & Skills

**DVD Series**

Capturing the increasingly professionalized and cutting edge feeling associated with health care, this new series features clear and precise concepts with examples and positive motivational messages about the high demand for qualified and motivated individuals in the health care field. Between seven and ten minutes in length, each show features experts who precisely communicate only the most important information. Students will appreciate the practical nature of specific skills presented. Teachers and counselors will find useful the opportunities described in such fields as therapeutic services, information services, diagnostic services, and support services which all point to the increasingly complex and expanding world of health care.

**Health Care Careers Without A Four Year Degree**

A variety of health care paths and careers are explored in this eye-opening presentation. Careers in therapeutic services, health information services, health diagnostic services, and health support services are explored that require less than a four year university education. Specific skills, potential for advancement, and the reward structures are also discussed.

DCD041 $69 DVD

**Health Care Skills: Team Building Skills**

Work teams that function well are critical to a healthcare organization's success. These organizations depend on teams to develop new techniques, solve problems, increase productivity, improve quality, and achieve cost reductions. This requires that teams and team members achieve quality outcomes faster and more effectively than ever before. This episode presents a practical guide with specific tips to the team building skills set necessary for an individual to thrive and advance in the healthcare career arena.

DCD044 $59 DVD

**Health Care Skills: Math And Medication Dosage Skills**

This show discusses the math skills needed for determining medication dosages in a visual and "real world" way. Diagrams and graphic images help students understand the correct metric conversion techniques used in determining medication dosages. A practical approach to learning to calculate and prepare medications and solutions including calculating intravenous flow rates and unit conversions make this an extremely useful show for health care professionals.

Updated - CD-ROM Version Of The Occupational Outlook Handbook
This popular career tool is updated with recent OOH career data that highlights the most popular careers and an interactive career inventory game. What makes this CD-ROM Version of the OOH a valuable and unique career resource is the 31-question inventory that presents the user with questions related to educational and extra-curricular interests. Based on the answers from the inventory, the program compiles a list of potential careers best suited for that user. This audibly guided tutorial makes the 300-plus careers presented easy to explore. Topics such as related occupations, outlook and demand, average salary, related high school courses, types of training, and necessary skills are covered in detail. With most of the career clusters, a short video clip is presented giving students a visual feel for that career cluster. “Explore Careers by Worker Trait Groups” and “Explore Careers by O*NET Titles” are unique features that give the user exposure to some of the most powerful and popular career exploration tools available.

Building Effective Job Skills
DVD Series

In a competitive job market, good communication skills, organizational skills, being a team player, and effective telephone skills are just some of the important skill sets employers look for in an employee. Job success often depends upon these basic work skills being developed. This series uses real life scenarios which provide both positive and negative examples of a variety of job skills. Reproducible worksheets give students an opportunity to put on paper and work out some of the concepts presented in each program.

Basic Career Communication Skills DVD Series

Why are communication skills so important and sought after in a competitive job market? Each show integrates the communication process: speaker has an intention that is filtered into a message which the listener then translates into an interpretation. Featured are various experts who share their day-to-day wisdom and relate directly to the need to connect academics with the work arena. This timely and important show helps to build job confidence and good communication skills. Reproducible worksheets included. Complete descriptions online at www.schoolco.com.

Office Etiquette
The do’s and don’ts of office etiquette are different from social rules. They are based on power rather than chivalry. This show points out where the rules of social and office etiquette differ and suggests ways to ensure grace and smooth functioning in a variety of situations. Polite behavior and proper office etiquette help provide a sense of confidence in business situations.

Public Manners
Public manners are based on consideration for others. But even the best intentioned people make mistakes. Crowds and large public events can bring out the “beast in the best of us.” This show will review the basics of good social manners and then focus on how you keep the “beast” at bay and use good manners as a tool for success.

DPC883 $59 DVD
DPC888 $79 DVD/WORKSHEETS

Dining Etiquette
Most of us know that forks are set to the left of a dinner plate and the spoon on the right. However, dining etiquette rules cover numerous other eating formalities. What are the rules for eating a chicken leg? Who sits first? What do you do with chopsticks? Who eats first? This show will review common suggestions and rules to provide a foundation for acting gracefully even in unfamiliar situations.

Quick Tips To Building Character & Attitude DVD Series

The idea that attitude is a choice is one of the greatest realizations a person can make. This series is based on the real life stories of people: students, graduates, and dropouts. The host will tie the various stories directly to school and workplace success. The episodes are tightly focused and will serve as an ideal springboard for class exercises in career and lifestyle visualizations.

DPC890 $215 • 4 DVD • APPROX 7-10 MIN. EACH

Attitude Towards School

This show looks at how attitude about school can color the whole experience of education. It reviews what school expects of students and then presents some techniques for internal attitude change. It also reviews some of the positive outcomes that are just an attitude shift away. Great motivational show for students; teachers will appreciate the reinforcement.

Learning Basic Economics DVD

This new, menu-driven DVD provides eight information oriented, basic skills programs to help encourage and direct academic readiness and positive outcomes as students start to understand economics. The eight titles listed below provide a basic overview of economic concepts. For example, the Quick Tip format of The Role Government Plays In Economics explores the connection between the free market economy and government services. The basic/core values of political liberals and political conservatives are explained. The program looks into how social values can conflict or guide the government. It examines the connection between government’s infrastructure and business and its production of goods and services so that individuals can live, work, and recreate. Each title is approximately 6 minutes in length for over 40 minutes of instruction.

**DVD menu items include:**
- Introducing Economics
- How Markets Work
- Basic Economic Indicators
- Monetary Fiscal Policy
- The Role Government Plays In Economics
- International Trade
- The Stock Market
- Technology And The Economy.

**DPC530 $129.95 DVD**

---

Learning About Government & Citizenship DVD

This new, menu-driven DVD provides nine information oriented programs to help encourage and direct academic readiness and a basic understanding of government and citizenship. The nine titles listed below provide an overview of the events and history surrounding each topic. For example, the Quick Tip format of Voting Rights explores elections, polls, state elections, and more. In addition, Jim Crow, segregation, the Civil Rights Movement, and the 19th and 26th Amendments are explored as part of a citizen’s right to vote. Each title is approximately 6 minutes in length for a total of over 50 minutes of instruction.

**DVD menu items include:**
- Declaration of Independence
- Making of the Constitution
- The Bill of Rights
- Amendments to the Constitution
- Forms of Government
- How A Bill Becomes Law
- Voting Rights
- The Three Branches of Government
- Careers In Government.

**DPC550 $129.95 DVD**

Plagiarism Poster Set

Topics include: it’s simple - use quotes around ideas, thoughts, words that are not yours; Internet plagiarism is easy, but it’s wrong; if you summarize, paraphrase, borrow, copy or use a common structure, then you need to quote it; to plagiarize is to steal, deceive, cheat, defraud, and fake; plagiarism has no honor, exhibits no ethics, lacks hard work, shows little integrity, and produces no pride. Contents: five, 17” x 22” posters.

Quick Tips To Learning Personal Finance Skills

**DVD Series**

Responsive personal finance skills are important in today’s economy. This series of four Quick Tips shows presents practical and realistic personal finance skills from understanding your paycheck and budgeting to credit and financial goal setting.

**SERIES DPC750 $179 • 4 DVD • 6-8 MINUTES EACH**

**Budgeting Skills**

Making a budget and sticking to it (the difficult part) are important life skills. This lively, fast-paced presentation outlines the major budgeting steps and ways to stretch those hard-earned dollars. Follow through and accountability are emphasized.

**DPC752 $49 DVD**

**Using And Abusing Credit**

Credit is a tool that must be used wisely. This show covers credit do’s, don’ts, troubles, and steps to repair bad credit. Many examples are explored that include car purchasing, college financing, buying clothes, etc. The consequences of over-spending are considered, and the effects of compulsive shopping on credit history are also explored.

**DPC753 $49 DVD**

**Life Goal Planning – Buying A Home And Saving For Retirement**

How do you help teens understand the importance of starting early, looking ahead, and saving for a rainy day? How do you help them get into the habit of saving each month even if it is only a little? This show outlines some of the tools used to help set and reach some important financial goals as well as presents numbers that may just help motivate and encourage saving.

**DPC754 $49 DVD**

**The Paycheck**

Where did all my money go? This show explains the basics of what payroll deductions are, what they do, and where they go. This fast-paced show presents other important payroll terms and forms in an easy-to-understand manner. It is fair to say that everyone looks forward to their paycheck – starting on this basic level helps your students build a sound understanding of their finances.
